

STORY SERIES
TRACK LIGHTING SYSTEM

A woman in a vibrant, multi-layered dress (orange, purple, teal) is captured in a dynamic dance pose. She is standing in a studio with a grey wall and a track lighting system. The lighting is focused on her, creating a dramatic atmosphere. The dress has multiple layers of ruffles in various colors, and she is wearing gold high-heeled shoes. The background is a simple, modern studio setting with a grey wall and a track lighting system.

EVERY TRACK TELLS A STORY

Creative lighting sets the scene for a space with the perfect atmosphere. With the **STORY SERIES TRACK LIGHT SYSTEM**, designers have the flexibility to illuminate artwork, accentuate walls, create a dramatic focal point in a room, and provide light in clear, linear lines using a wide range of different track configurations.

ILLUMINATE YOUR STORY WITH LIGHT

ADAPTABLE, VERSATILE & FLEXIBLE

The Story Series provides the modern lines and configuration capabilities needed by evolving residential and commercial spaces.

A STORY IN EVERY ROOM

Tell your story through general lighting or ambient light, brightening up rooms or hallways through softer colors, a wider light spread, or different shades of light.

ONE FOCUS, ONE STORY

Emphasize your story with directed task lighting focused on just a desk, table, or other working space to provide the appropriate lighting for the task at hand.

FEATURE YOUR STORY

Highlight a specific feature of the room by angling light against the wall or object to bring out your design intent.

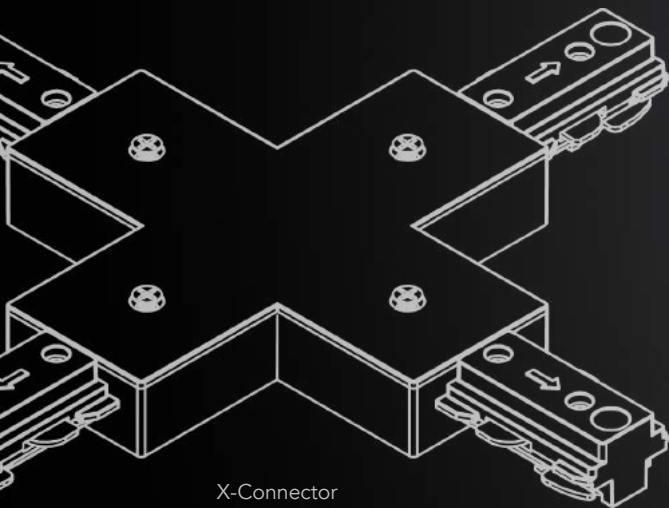

A ROBUST H-STYLE TRACK SYSTEM

Your journey begins with the track. The elegance of a design relies on the precise placement of spotlights, illuminating spaces with intention.

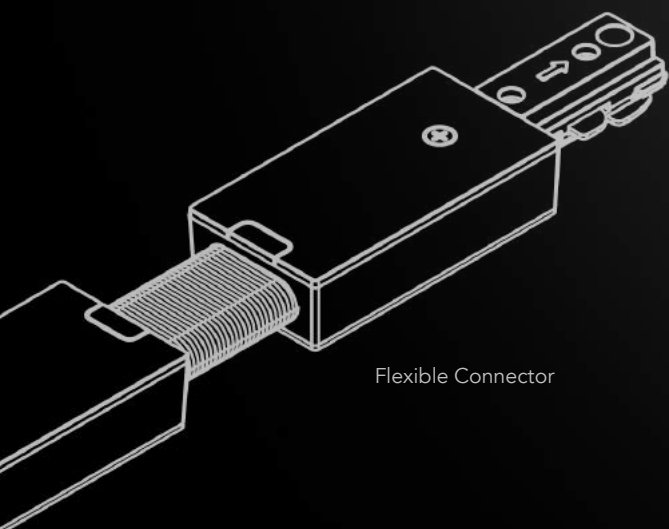

The Story Series Track System is designed using the most popular H-System (Halo compatible) and offers an extensive array of components to tailor the perfect configuration for your vision.

KEY FEATURES

- 120V Single circuit, ceiling or suspension mounting
- Wide range of lengths: 2, 4, 6 & 8ft
- L, T, X, I and Flexible Connectors to form creative track paths
- Modern white and matte black finishes

CHOOSE THE LUMINAIRE TO SET YOUR SCENE

LED CYLINDER TRACK HEAD LIGHT

With a sleek 6" cylindrical design, horizontal rotating, vertical pivoting features, and five selectable color temperatures, the Cylinder Track Head creates the perfect ambiance to enhance any space.

LED ZOOMABLE CYLINDER TRACK HEAD LIGHT

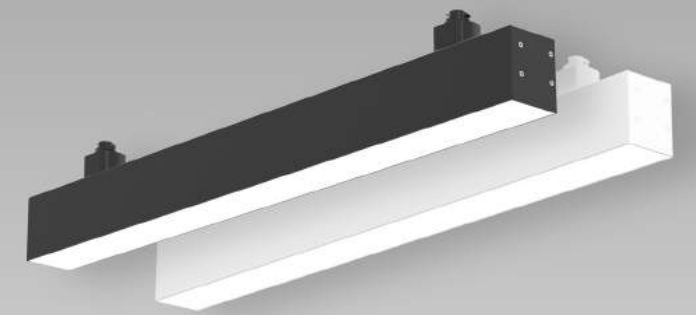

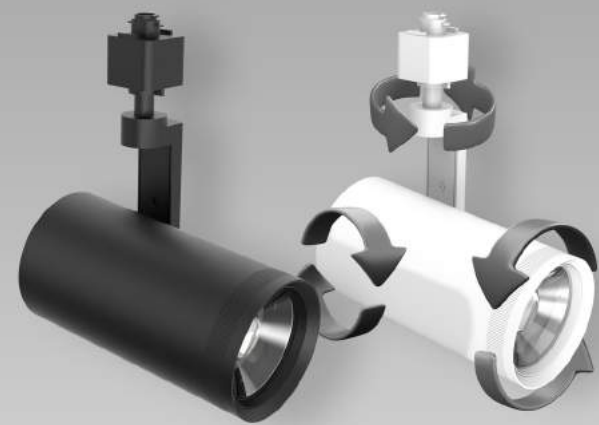

Inspired by the Cylinder Track Head, this model is tailored for higher ceiling applications and features a zoomable design, allowing adjustments from 20° to 50° (spot/narrow flood/flood), delivering up to 3,300 lumens.

LED CYLINDER TRACK PENDANT LIGHT

To complement the cylinder head design, incorporate the Cylinder Track Pendant for areas dedicated to task or accent lighting. This addition enhances dimension and creates focal points within the space.

LED LINEAR TRACK LUMINAIRE

Designed to visually complement clean lines in modern architecture, the 2 ft Linear Track Luminaire runs parallel to the track to provide a uniform and subtle way to seamlessly enhance interiors.

Order#	Watts	Voltage	Lumens	CRI	CCT	Finish
